Re: Tax Parcel(s) 1400300033

To Whom It May Concern:

We recently received signed petitions requesting that Artesian Water Company, Inc. provide water service to properties near you.

In order to provide your area with public water, Artesian must file for a Certificate of Public Convenience and Necessity (CPCN) with the Public Service Commission (PSC). Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

Sincerely,

Alan L. Fleetwood

- (3) Pursuant to current law, you may also elect to opt-out of inclusion in the proposed service area. The term "opt-out" means that you decide that you do not want to receive water service from Artesian Water Company, Inc., even if a majority of the landowners in the proposed service area do elect to receive water service from Artesian Water Company, Inc. If you decide that you do not want to receive water service from Artesian Water Company, Inc. and instead wish to opt-out, you must notify the Commission, in writing, within sixty days of your receipt of this notice or within thirty days of the filing of the completed Application for a CPCN, whichever is greater.

To Whom It May Concern:

We recently received signed petitions requesting that Artesian Water Company, Inc. provide water service to properties near you.

In order to provide your area with public water, Artesian must file for a Certificate of Public Convenience and Necessity (CPCN) with the Public Service Commission (PSC). Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

To Whom It May Concern:

We recently received signed petitions requesting that Artesian Water Company, Inc. provide water service to properties near you.

In order to provide your area with public water, Artesian must file for a Certificate of Public Convenience and Necessity (CPCN) with the Public Service Commission (PSC). Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

Sincerely,

To Whom It May Concern:

We recently received signed petitions requesting that Artesian Water Company, Inc. provide water service to properties near you.

In order to provide your area with public water, Artesian must file for a Certificate of Public Convenience and Necessity (CPCN) with the Public Service Commission (PSC). Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

To Whom It May Concern:

We recently received signed petitions requesting that Artesian Water Company, Inc. provide water service to properties near you.

In order to provide your area with public water, Artesian must file for a Certificate of Public Convenience and Necessity (CPCN) with the Public Service Commission (PSC). Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

To Whom It May Concern:

We recently received signed petitions requesting that Artesian Water Company, Inc. provide water service to properties near you.

In order to provide your area with public water, Artesian must file for a Certificate of Public Convenience and Necessity (CPCN) with the Public Service Commission (PSC). Attached is information we are required to provide to all landowners within the proposed service territory prior to filing the CPCN Application.

The CPCN, when granted, will allow Artesian to be the public water service provider for your area. You are not obligated to connect to the public water system when it becomes available.

Under the law, the Public Service Commission is obligated to grant a CPCN to a utility to provide water services if a majority of the landowners in a proposed service area have requested the utility's water services. This means that even if you have not signed a request for the utility's water services, your property may be included in the utility's service area if more than half of the landowners have made such requests. If you want your property included in the service territory, even though you did not sign a request for the utility's water services, then you need not take any further action. However, if you do not want your property included in the utility's proposed service territory or if you oppose the utility providing services in the area, then you must do something under one or more of the attached options within 60 days.

Artesian provides excellent customer service and water quality. A recent survey of our current customers showed that 96% of our customers, if given the choice, would choose Artesian again.

If we can be of any further assistance to you, please feel free to contact me at 1-800-332-5114 or (302) 453-6983.

Sincerely,

Alan L. Fleetwood
